

Targeted age group:

Under 5 years

Under 10 years

Under 10 years

Factors:

SMC coverage

EIR

Access to treatment

Rate of spread of the quintuple mutant

Moderate seasonality setting

Coverage reduction at each round = 0%

Coverage reduction at each round = 10%

Number of SMC rounds = 4

Number of SMC rounds = 4 + 1 after

Number of SMC rounds = 4 + 1 before

High seasonality setting

Coverage reduction at each round = 0%

Coverage reduction at each round = 10%

Number of SMC rounds = 3

Number of SMC rounds = 3 + 1 after

Number of SMC rounds = 3 + 1 before
